30 August -	Sensorium
6 September -	Sensorium
12 September -	R U OK? Day
13 September -	Sensorium
20 September -	Last Day of Term
Term 4	
8 October -	Tuesday – First Day of Term 4

Wonderful Workers

Thank you, Jonathan, Dakota and Owen, for showing us your Wonderful Work. You all made a map of the Bear Hunt story you are reading in class. What clever little workers you are.

Room 1 Assembly

Last week, Room 1 put on a wonderful assembly performance of the story "Five Little Monkeys." Blake took it away as the narrator, introducing us to his playful monkey family. Dakota, Owen, Ojus, and Liam brought the mischievous monkeys to life, while Zoey took on the role of their loving mum. Jonathan did an amazing job on the microphone, playing the role of the family doctor. What a great show they put on! Fantastic work, Room 1.

Going for Gold!!!

For those who were not aware, we have an Olympic Gold Medallist and World Record Holder in the house! Our lovely C4 teacher, Sarah Welsford's brother, Sam Welsford and his Track Cycling team competed at the Paris Olympics and won. We were all so very excited for them and had lots of fun cheering them on. What a fantastic achievement.

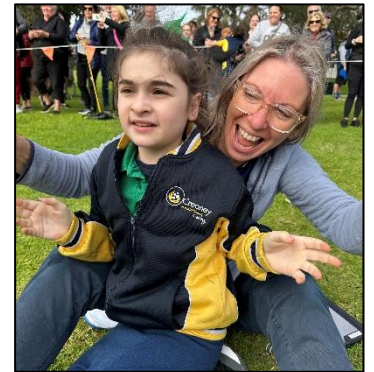

"Just wanted to say a HUGE thank you to everyone who shared in the excitement of my brother, Sam's success at the Paris Olympics. After not being able to get a ticket to **any** of his events for many, many years, I feel overwhelmingly grateful to have been able to go this time round!! Sam finally got the gold medal he was yearning for, and it was just incredible to be there to witness it. Particular thanks to Melissa Beagley, the C4 students, team and everyone else who supported us on this amazing journey." **Sarah Welsford**

Creaney Primary School Sports Day

The rain held off and it turned into a perfect day. We all had a thoroughly amazing time running in the races with our Primary School friends, as you can see from all the huge smiles. Our students were so well behaved and had fantastic sportsmanship; we are so proud of ALL of you.

Room 2 STEM

We have been enjoying STEM rotations where we get to explore and operate a range of STEM activities like Tangrams, Beebot coding and Maths Marbotics.

Student Superstar Spotlight

What a little swimming superstar you are Maddie. We are very proud of you.

Principals Note

It is hard to believe that we are already over half way through term three.

By now you should all have received an email asking for you to confirm your intentions for 2025, and letting me know if your child will NOT be attending CESC in 2025 for what ever reason.

It is a busy time of year with enrolments and we have a lot of families really keen to get their child into our wonderful centre and we would love to

be able to help as many of them out as possible. So if you are planning on moving your child, please do let me know as soon as possible so that we know what spaces we have available.

Suspicious Activity

If you notice any suspicious activity on school grounds after school is closed, please contact Security on 9264 4771 or the Police on 131 444.

Dolphin Program a **SPLASHING** success

Wanneroo Aquamotion's Dolphin Program will celebrate 25 years of helping kids and adults with disabilities and additional needs develop life-saving water skills. The popular program is currently full at 200 students, with many members signing up more than 10 years ago – wow! Swimmers are placed into one-on-one or smaller classes based on their needs and can access ramps, chair hoists, a sling hoist and a Pool Pod for lowering wheelchairs.

Dolphin Program swimmer Maddie (10) has Down syndrome and enjoys taking part in one-on-one classes. She started in the program as a baby with twin sister, Issy, who takes part in Aquamotion's mainstream swimming lessons. "Maddie has flourished in the Dolphin Program, it's her favourite time of the week," Maddie's Mum, Jaime, said.

"She's very cheeky and she enjoys coming to Aquamotion and I think her instructors enjoy teaching her too!" Parent Tamsin's three children Tristan (16) and twins Jason (11) and Keira (11) have been involved in the Dolphin Program for six years. "The program supports kids with different needs and the teachers and are so kind, patient and friendly," Tamsin said.

Did you know that every year Dolphin Program members take part in their very own Olympics? Swimmers get to show off their skills, have some fun and receive a medal!

Djilba

Djilba is the season from August to September. It is the time of the second rains. During this season, the days begin to become warmer and the nights are still cooler, but the rain is slowing. The people collected plant roots and hunted emu, kangaroo, possums and bandicoot. This is the start of the massive flowering explosion that happens in the South West. This starts with the yellow flowering plants such as the Acacias. Also colours that are around at this time of year are creams, combined with some vivid and striking blues.
